Safety clog made of EVA, with composite toe cap. Anatomical design, antibacterial and ultra-lightweight. Provides maximum comfort and protection with every use, even during extended work shifts.

EVA PRO

Provides toe protection, anatomical support, and enhanced grip thanks to its fold-down backstrap, increasing both comfort and safety. Slip-resistant sole for greater stability on slippery surfaces.

Description

Anatomical clog with composite toe cap, made of EVA (ethylene-vinyl acetate) for extreme lightness and durability. Features a fold-down backstrap between the heel and the vamp. Includes a textile insole over cushioned PU foam with antibacterial treatment. Equipped with a high-grip rubber outsole that offers excellent slip resistance. Designed without side perforations to prevent the entry of liquids or fluids. Machine washable without compromising its properties. Certified product of Spanish origin.

Regulations

CE Certified, **EN-ISO-20345:2022** UE 2016/425

ANTIbacterial **ISO 16187.** Antiviral **ISO 21702:2019**

Protection Level

SB+SR+E

SB Safety footwear with toe caps resistant to an impact energy equivalent to 200 J and compression of 15 kN. Slip resistance on tiles with NaLS.

SR Slip resistance on ceramic tile flooring with glycerin.

E Energy absorption in the heel.

Features

Slip-resistant sole: prevents slipping, providing secure traction even in slippery conditions..

Cushioned textile insole with antibacterial treatment and activated carbon.

Fold-down back strap: for improved fit.

Maintenance

Washable up to 40°C in a washing machine or by hand. Do not machine wash the insole.

Drying: Wipe with a dry cloth and allow to air dry at room temperature.

Sustainability

Box and packaging made of 100% recycled and recyclable cardboard, FSC certified.

Especially suitable for

Healthcare personnel.
Hospitality workers.
Cleaning staff.
Food industry professionals.
Maintenance personnel.
Pharmaceutical and biotechnology staff.

EVA PRO

Technologies and Certifications

ISO 20345: 2022

Basic requirements for safety footwear intended to protect against mechanical risks in occupational environments, including safety toecap protection, slip resistance, and heel energy absorption.

ANTIbacterial

Certifies the effectiveness of the antibacterial additive in our footwear according to ISO 16187 with a 99% efficiency rate. The footwear models and/or components are treated with an antibacterial agent that inhibits the growth of the most common bacteria in hospital and food environments. Certification property and seal by INESCOP.

ANTIVIRAL

ANTIviral

Certifies a 99% viral reduction according to ISO:21702:2019 for Human Coronavirus 229E.

MYREACH

MyREACH

Certifies that a control of restricted substances for footwear has been carried out according to Annex XVII of the REACH Regulation, ensuring they do not contain substances harmful to health or the environment. Certification property and seal by INESCOP.

EVA PRO

STEP INTO UNBEATABLE PROTECTION AND ALL-DAY COMFORT. ALL IN ONE MOVE.

If you face long shifts and need maximum protection, your choice is EVA PRO. It combines comfort, a reinforced toe cap, and a slip-resistant sole—wherever you are—delivering constant safety and lasting comfort with every step of the day.
